

# **Safety Data Sheet**

Review Date: 4-Oct-2023

#### www.srlchem.com

Section 1 - Chemical Product and Company Identification

Product Name	Genta-Oxy Selective Supplement
Product Code	50084
Use for	Laboratory Chemicals.
Company Name	Sisco Research Laboratories Pvt. Ltd.
Address	608, B Wing, Satellite Gazebo, Andheri Ghatkopar Link Road, Andheri (E), Mumbai - 400 099, India

#### Section 2 - Composition/Information on Ingredients

<b>Specification</b>	
Ingredient	gm/lt.
Oxytetracycline	50.00
Gentamicin	25.00

## pH at $25^{\circ}$ C : $7.1 \pm 0.2$

Section 3 - Hazards Identification

**Risk advice to man and the environment** Non-Haz

## Section 4 - First Aid Measures

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Eves: Skin: Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician. Ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. Inhalation: If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician. **General advice:** Consult a physician. Show this safety data sheet to the doctor in attendance. Notes to Physician: **Section 5 - Fire Fighting Measures Extinguishing Media** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Suitable: **Special Protective** Equipment For Firefighters: Wear self contained breathing apparatus for fire fighting if necessary.

Section 6 - Accidental Release Measures

Personal precautions:       Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Ensure adequate ventilation. Evacuate personnel to safe areas.         Environmental precautions:Prevent further leakage or spillage if safe to do so.       Do not let product enter drains.         Methods for cleaning up:       Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.         Section 7 - Handling and Storage       Handling:       Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.         Storage:       8 to 25°C. Keep container tightly closed in a dry and well-ventilated place.         Section 8 - Exposure Control / Personal Protection         Personal Protective Equipment         Respiratory Protection:       Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N99 (US) or type P2 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).         Hand Protection:       The selected protective gloves have to satisfy the specifications of EU Directive By/686/EEC and the standard EN 374 derived from it. Handle with gloves.         Eye Protection:       Safety glasses         Skin and body protection:       Choose body protection according to the amount and con	www.srlchem.com	
Ensure adequate ventilation. Evacuate personnel to safe arcas. Environmental precautions:Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Methods for cleaning up: Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal. Section 7 - Handling and Storage Handling: Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection. Storage: 8 to 25°C. Keep container tightly closed in a dry and well-ventilated place. Section 8 - Exposure Control / Personal Protection Personal Protective Equipment Respiratory Protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N99 (US) or type P2 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Handle with gloves. Eye Protection: Safety glasses Skin and body protection: Choose body protection according to the amount and concentration of the dangerous substance at the work place. Hygiene measures: Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Section 9 - Physical and Chemical Properties Physical State: Solid Storage: 8 to 25°C (Cool & dry area) Section 10 - Stability and Reactivity Storage stability: Stable under recommended storage conditions. Product Code 50084
Acute toxicity: No data available
Irritation and corrosion: No data available
Sensitisation: No data available
Chronic exposure: IARC: No component of this product present at levels greater than or equal to 0.1%
is identified as probable, possible or confirmed human carcinogen by IARC.
Signs And Symptoms
Of Exposure: No data available
Route Of Exposure
Inhalation: No data available
Skin : No data available
Eyes: No data available
Ingestion: No data available
Section 12 - Ecological Information
No data available.
Section 13 - Disposal Considerations
Product:Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.Contaminated packaging:Dispose of as unused product.
Section 14 - Transport Information
IATAIMORID/ADRShipping Name:Not regulated for transport (Non-Haz)Hazard Class:UN Number:Packing Group:Section 15 - Regulatory Information

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.
