## Ferric Sulphate Hydrate extrapure AR, 19-21% Fe

Part A

CAS : 15244-10-7

Molecular Formula :  $\text{Fe}_2(\text{SO}_4)_3 \cdot x\text{H}_2\text{O}$

Molecular Weight : 399.88

### Specifications

|                                                        |                              |
|--------------------------------------------------------|------------------------------|
| Appearance (Colour)                                    | Light yellow to yellow beige |
| Appearance (Form)                                      | Powder                       |
| Solubility (Turbidity) 3% solution in Concentrated HCl | Clear                        |
| Assay (Iodometric)                                     | 68 - 70%                     |
| Iron (Fe) content                                      | 19 - 21%                     |

### General Information

|                     |                                                       |
|---------------------|-------------------------------------------------------|
| Storage             | 25 to 40°C (Room Temperature)                         |
| Shelf Life          | 60 Months                                             |
| IMDG Identification | UN No.:3260 , IMCO Class No.:8 ,<br>Packing Group:III |
| HSN Code            |                                                       |
| 5 Kg                | 28332990 (GST 18%)                                    |
| 500 Gms             | 28332990 (GST 18%)                                    |
| Type of Packing     |                                                       |
| 500 Gms             | Glass Bottle                                          |
